

Quality Assurance Tester

Date: 27-Feb-2024

Location: Egham, Surrey, UK (Hybrid)

Company: Webtrends Optimize

Want to take your career to the next level? Come and join an award-winning UK technology company.

Webtrends Optimize is a leading vendor in the Experimentation and Personalisation space, rated “People’s Choice platform of the year” for 2023. We provide technology and UX / conversion expertise to leading companies like Odeon Cinemas Group, Prettylittlething, Halfords, Travel Republic, etc., as we look to improve their digital experiences.

Having grown over 40% year on year, life at Webtrends Optimize is full of opportunities. We support our self-service (SaaS) customers and our valued partners but also provide first-class service to our managed-service customers. We offer you the chance to create, learn and innovate across some of the most recognisable brands globally, all with a flexible benefits package with a range of options to match your lifestyle.

Position Description

Webtrends Optimize is seeking a passionate, curious, quick learner and detail-oriented Quality Assurance (QA) Tester, to Join our dynamic team. If you're a proactive self-starter looking to kickstart your career in quality assurance and make a meaningful impact in the digital optimisation space, this is an exciting opportunity for you.

As QA Tester, you will play a crucial role in testing website optimisation projects developed using our cutting-edge solution. You will work closely with our agile web development teams, contributing to the delivery of flawless digital experiences for our clients.

Primary Responsibilities

- Collaborate with cross-functional teams to understand project requirements and objectives
- Design, develop, and execute test cases for website optimisation projects
- Visual, functional, regression & usability testing to ensure the highest quality standards are met
- Logging defects accurately and comprehensively for developers to resolve
- Retesting fixes and regressions to verify issues are resolved
- Provide suggestions on improving test coverage
- Creating basic test plans and test cases
- Performing simple data validation checks
- Testing across browsers, devices, and platforms as needed

Interaction

This position is internally facing. The successful candidate must have a strong attention to detail and excellent communication skills and be able to build strong and professional working relationships with internal team members.

Required Skills & Experience

- At least 12 months experience working in a QA role, an internship, or holding a relevant degree
- Extremely detail-oriented with a motivated, can-do attitude and ability to learn quickly
- Basic understanding of QA methodologies and concepts
- Knowledge of responsive web design and testing on different devices/browsers/applications
- Proven in managing projects to tight schedules and precise deadlines
- Ability to adapt quickly and respond effectively in high-pressure, multi-tasking situations
- Technical aptitude with understanding of how browsers, HTTP and cookies work

Preferred Skills & Experience

- Understanding of website optimisation or A/B testing concepts and techniques
- Technical background/understanding of software development/web technologies
- Working knowledge of HTML, CSS, JavaScript, and Chrome Dev Tools
- Good understanding of regular expressions
- Basic SQL, programming, or automation scripting skills
- Experience constructing & performing QA procedures on modern, dynamic web pages
- Experience or familiarity with Jira and knowledge of using defect tracking tools like Testrail

Working Conditions

- The position is located at our UK Headquarters in Egham, Surrey, UK
- Flexible home working policy (following probation period)
- The job involves extensive time working at a computer
- Candidate must pass a background check

We Offer

- Contributory Pension
- Private Medical Insurance
- Private Dental
- 25-day annual leave plus 2 paid charity volunteering days
- Hybrid working
- Critical illness and life assurance cover

Position Type

- Permanent, Full-time
